

Prepare Nutritionally Balanced Food for Children

Price
\$75pp

Childcare Centres everywhere are continually striving to develop policies and procedures that demonstrate Best Practice. The Quality Improvement and Accreditation System sets out a number of principles for centres to follow to ensure you meet the standards for quality Childcare.

Quality area 6 sets out the principles that ensure that staff are sensitive and responsive to each child's daily nutritional needs. It ensures that food eaten by children retains its nutritional value.

Your level of **compliance** with this standard can impact on your centre's **rating** and ultimately your level of **funding**.

To **achieve** or **maintain** a **High Quality Care** rating – call CFT QLD today on **5520 0390** to enrol your staff into their Childcare Nutrition Course.

All participants who successfully complete the course will be issued with a **Certificate of Completion**.

For course fees and enquiries call:
5520 0390 or 1300 775 155
